PURCHASE REQUISITION

ProcuraMed – Biomedical Engineering Department

Department	Biomedical Engineering
Category	Biomedical Equipment
Priority	High
Request Title	Procurement of Multiparameter Patient Monitor
Item	Multiparameter Patient Monitor
Quantity	2 Units
Estimated Unit Price	₹2,50,000.00
Estimated Total	₹5,00,000.00
Required Date	30 November 2026

Reason / Clinical Justification

The Biomedical Engineering Department requires additional multiparameter patient monitors to support critical care and emergency areas. Existing monitoring equipment is heavily utilized, and additional units are required to ensure continuous monitoring of patient vital parameters and reduce delays when equipment is unavailable.

Technical Specifications / Requirements

- ECG monitoring
- SpO_2 monitoring
- Non-invasive blood pressure (NIBP)
- Temperature monitoring
- Minimum 15-inch color display
- Audible and visual alarms
- Battery backup
- Trend data storage
- Suitable for continuous hospital use
- CE/IEC compliant or equivalent applicable standards

Supporting Documents

Technical specification sheet / product brochure, if available.

Procurement Justification

The equipment is required to maintain adequate availability of patient monitoring devices and support uninterrupted hospital services.
