PURCHASE REQUISITION

ProcuraMed – Laboratory & Diagnostic Services Department

Department	Laboratory & Diagnostic Services
Category	Laboratory Equipment & Supplies
Priority	High
Request Title	Procurement of Automated Biochemistry Analyzer
Item / Product	Automated Biochemistry Analyzer
Quantity	1 Unit
Estimated Unit Price	₹8,00,000.00
Estimated Total	₹8,00,000.00
Required Date	30 November 2026

Reason / Clinical Justification

The laboratory requires an automated biochemistry analyzer to handle routine blood and urine tests efficiently. The equipment will help improve testing speed, accuracy, and patient service.

Detailed Specifications

The analyzer should be suitable for routine hospital laboratory testing. It should support common biochemical tests such as glucose, urea, creatinine, and liver function tests. It should have an easy-to-use display, automatic sample processing, and a reliable result storage system. The equipment should be suitable for continuous laboratory use.

Supporting Documents

Product brochure and technical specifications, if available.
